## Geberit CleanLine shower channel.

### Perfect solution.

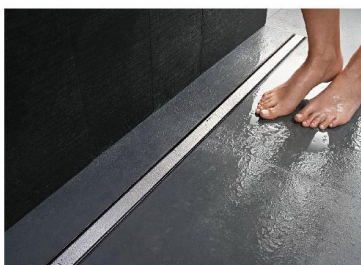

#### The problem.

Many shower channels look good but underneath the cover, dirt and bacteria can collect. Opening it up is troublesome and makes cleaning difficult leading to an unhygienic bathroom area.

#### The solution.

Geberit CleanLine shower channels are the perfect solution - they not only look good but are also easy to clean thanks to clever innovations

The Geberit floor drain for shower is the universal solution for floor-even

showering with clear advantages: reduced size ingenious function and simple installation.

Unimpeded trap and waste – to the point

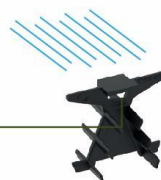

#### Big performance in a small package

Wherever installation needs to be as simple as possible and costs kept as low as they can be, the Geberit floor drain is the best solution. The most compact, with only 80 x 80 mm grating area.

#### Practical solution

The compact cover in the middle of the shower channel can be removed with one hand without force.

#### Cleaned right away

The newly developed comb insert holds back dirt and can be cleaned in a matter of seconds.

#### Easily adapted

The shower channel can be easily adapted to the required length during installation.

#### Intelligently built

The collector surface carries the water to the outlet with no possibility for concealed dirt build-ups.

#### Efficient installation

The installation set for Geberit shower solutions has a sealing foil injected when produced in the factory. This makes installation quick and hassle free, ensuring a leak-proof solution.

**CAUTION:** Cleaning should be done with non aggressive or non abrasive household cleaners using a soft cloth, following the maintenance manual.
